

Name : kagitha suresh kumar

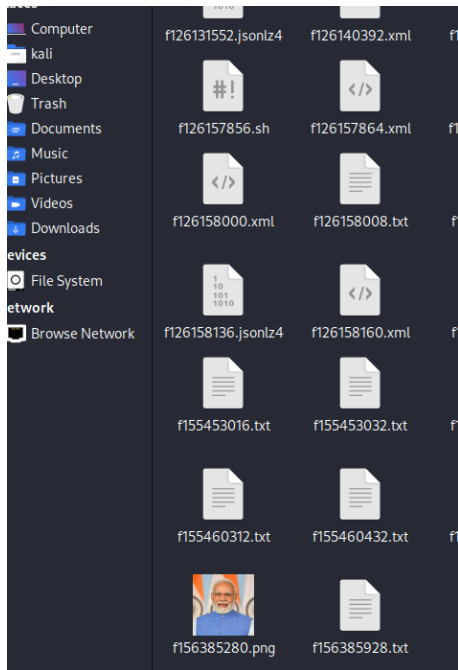

Reg no: 11903959

Roll no: 46

Sec: KC022

Faculty: Dr. Manjot Kaur

- ⇒ Sudo su
- ⇒ Sudo photorec
- ⇒ Click on yes.
- ⇒ Select the drive or the file which you want to retrieve the files.
- ⇒ Select the disk or partition where the files were stored, and press "ENTER".
- ⇒ Choose the file system type and press "ENTER".
- ⇒ Choose the partition type and press "ENTER".
- ⇒ Select the option whole or the specific disc which you want to scan during this process.
- ⇒ Select the file like documents or photos etc.
- ⇒ And select where you want to save the repair partly erased or damaged multimedia files from your system.
- ⇒ The system will take some time to work on this and will retrieve the damaged or erased files as recup_dir .1, recup_dir.2 etc.
- ⇒ As all these files are mixed, we have to check each and every file and rename them accordingly to our convenience.
- ⇒ When we open the folder, we can see what photos are retrieved.

⇒ This the example image of the Narendra modi which we have retrieved during our project.
